MessageSolution Enterprise Email Archiving Suite, Named Finalist For 2006 Best Messaging Solution In Product Excellence Award By IDG World Expo

Castro Valley, CA, August 1, 2006 – MessageSolution Inc., the leading software solution provider in Email Archiving, Information Retention, Storage Management, Email Compliance and Litigation Support, with its upcoming new release of MessageSolution Enterprise Email Archiving Suite 4.0, named as the Finalist for the Best Messaging Solution in Product Excellence Award by Linux Journal and IDG World Expo. The 2006 Product Excellence Award will be announced in San Francisco LinuxWorld Conference on August 16, 2006.

“MessageSolution Enterprise Email Archiving Suite (EEA Suite) is an exceptional software solution that delivers the best and the most effective means for enterprise customers to archive the corporate emails and attachments, search and retrieve these email data and documentations to meet the organizations’ growing requirements in regulatory compliance, optimized storage management, and Litigation support.” Said Jeff Liang, CTO at MessageSolution Inc. “We’re proud of being selected by the prestigious IDG World Expo for the Best Messaging Solution as the two times in a row finalist this year”.

About MessageSolution Enterprise Email Archiving Suite 4.0:

The enhanced new release includes the advanced seamless integration with MSFT Outlook, Lotus Notes Domino, Centera storage devices, PST File Manager, with compatibility of Windows/Linux multi-platform operating systems, and the native Linux platform support.

By moving archived emails onto the MessageSolution Enterprise Email Archiving Suite, the industry-leading on-site email archiving software solution, the enterprise customers can significantly reduce the cost and complexity of the primary email storage and email application infrastructure while ensuring compliance and the immediate access to the email and attachment data from a preferred email client. With less data on the email servers, the corporate messaging systems become highly efficient to manage.

MessageSolution EEA product family includes two main versions, EEA Suite and EEA Express. The large size enterprises often select EEA Suite thanks to its comprehensive feature-set and the seamless integration with MSFT Outlook, Lotus Notes Domino, or its compatibility with the native Linux OS support. The medium size companies chose EEA Express version for its sufficient compliance archiving and storage optimization functionalities, along with the excellent performance in aspect of easy maintenance to offer a robust yet cost effective solution for the medium size organizations.

MessageSolution Enterprise Email Archiving software system is the first email archiving solution launched in the market with cross-platform compatibility of Windows/Linux, and the native Linux OS support.

Main Modules and Features in MessageSolution Enterprise Email Archiving Suite (EEA Suite):
