

# Software as a Service Hosted Archiving

A COMPLETE SOLUTION FOR COMPLIANCE, LITIGATION SUPPORT, & STORAGE

LIVE ARCHIVING SOLUTIONS FOR ORGANIZATIONS OF ALL SIZES

**MessageSolution Enterprise Email Archive Hosting System is an all-in-one live archiving solution available for hosting in data centers, by email hosting firms, and in multi-domain organizations.**

MessageSolution Enterprise Email Archive Hosting System is a software as a service (SaaS) archiving solution for enterprise storage management, compliance, and litigation support.

MessageSolution's full-text index engine delivers fast and accurate search results from millions of emails, while MessageSolution's breakthrough storage management technology reduces corporate message stores by more than 75% and at the same time guarantees sub-second data retrieval.

Businesses can implement MessageSolution Enterprise Email Archive for hosted Exchange, Domino, GroupWise, and Linux-based environments. SaaS archiving allows businesses to deploy a best-of-breed archiving solution in record time with minimal associated costs.

Policy-based archiving and built-in reporting features support compliance efforts, while an arsenal of email management tools equip in-house legal teams with the ability to review the corporate archive without IT assistance.

MessageSolution Enterprise Email Archive Hosting System is hosted in multiple secured locations with industry-leading archiving performance, high availability, and disaster recovery. Data is encrypted as it leaves the enterprise customers' corporate networks, where it is securely stored with 128-bit encryption in the archive.

#### Archive features:

- Policy-based archiving of incoming, outgoing, & internal messages
- Archiving of historical mails
- Automated mailbox management & stubbing to optimize mail server storage
