## **MessageSolution Advances Its Innovative Leadership Position In Compliance Email Archiving and Storage Management, With The MessageSolution Enterprise Email Archiving Suite 3.6 Release**

*MessageSolution Inc., the pioneer in developing and providing email and instant message archiving, legal search, electronic discovery, and storage management for enterprises to achieve the regulatory compliance, today released its Enterprise Email Archiving Suite 3.6, with its Worldwide Partner Program In expanding global business development*

Chicago, IL and Castro Valley, CA, July 12, 2006 -- MessageSolution, Inc. the leading technology innovator in Email Archiving, Information Retention, Storage Management, Email Compliance and Litigation Support, today announced its release of MessageSolution Enterprise Email Archiving Suite 3.6, to kick off the 2006 Summer Email Archiving Seminars Co-Sponsored with TechTarget, EMC, Symantec, Computer Associates, and other leading email archiving solution providers.

The enhanced new release includes key features such as seamless integration with MSFT Outlook, Lotus Notes Domino, Centera storage devices, PST File Manager, Windows/Linux multi-platform operating systems compatibility, and the native Linux platform support.

About MessageSolution Enterprise Email Archiving Suite 3.6:

By moving archived emails onto the MessageSolution Enterprise Email Archiving Suite, the industry-leading on-site email archiving software solution, the enterprise customers can significantly reduce the cost and complexity of the primary email storage and email application infrastructure while ensuring compliance and the immediate access to the email and attachment data from a preferred email client. With less data on the email servers, the corporate messaging systems become highly efficient to manage.

MessageSolution EEA product family includes two main versions, EEA Suite and EEA Express. The large size enterprises often select EEA Suite thanks to its comprehensive feature-set and the seamless integration with MSFT Outlook, Lotus Notes Domino, or its compatibility with the native Linux OS support. The medium size companies chose EEA Express version for its sufficient compliance archiving and storage optimization functionalities, along with the excellent performance in aspect of easy maintenance to offer a robust yet cost effective solution for the medium size organizations.

MessageSolution Enterprise Email Archiving software system is the first email archiving solution launched in the market with cross-platform compatibility of Windows/Linux, and the native Linux OS support.
