

MessageSolution empowers Education Institutions through its Award-Winning Archiving, eDiscovery and Migration Solutions and Showcases at EDUCAUSE 2013

*MessageSolution's goal at **EDUCAUSE 2013 Annual Conference** will be to showcase its award-winning information archiving and legal discovery solutions, while networking with enterprises to support education sector. **MessageSolution's** technology streamlines compliance, eDiscovery and storage management, thus providing educational institutions options to archive their files, emails and SharePoint documents cost effectively.*

Anaheim, CA and Milpitas, CA (October 15, 2013) **MessageSolution, Inc.**, a global technology leader in enterprise information archiving, eDiscovery and data migration will be showcasing its award-winning enterprise on-premise, cloud archiving solution, and service provider hosted platforms at EDUCAUSE 2013 held in the Anaheim Convention Center on October 16-18, 2013.

“More organizations opt to **MessageSolution** archiving and eDiscovery solutions since we provide the most deployment platforms in the market,” states Kevin Mcinerney, Global Marketing Strategist at **MessageSolution**. “We also provide school districts and colleges with the flexibility to host the archiving system on-site, at their service providers’ datacenters, in MessageSolution cloud archiving network, or choose a combination of these solutions. “

MessageSolution delivers the enterprise-class rich features at an affordable price. **MessageSolution's** information archiving products support all email platforms, delivering in the most framework formats in the industry including enterprise on-premise solution, cloud archiving system, and the service provider hosted platform. Overall, **MessageSolution's** technologies offer the most business opportunities to VAR partners, and deliver the best value to the non-profit organizations in educational space.

MessageSolution's education program, “**Archive.Edu**” delivers a top-notch solution especially for schools and universities required by law to archive their emails and files for legal compliance. Archiving email and electronic files help education institutions prove their integrity and encourage accountability among faculty members and employees. **MessageSolution's** email, file, and SharePoint archiving solutions are automated, policy-driven archiving software systems that allow schools, colleges, both private and state-run, to implement and monitor their internal and external controls to become compliant with Freedom of Information Act, FRCP, HIPPA, GLBA and other state and federal education mandated compliance requirements.

MessageSolution delivers a unified and reasonably priced solution for regulatory compliance, addressing legal discovery and compliance requests, implementing a secure storage management and increased overall administrative efficiency. With products deployed in 50 countries with large volume generated, on average, the **MessageSolution** Platform saves educational institutions thousands of dollars in overhead costs with the potential to save hundreds of thousands of dollars over the next few years. MessageSolution's products can be acquired by non-profit organizations at a fraction of the cost, when comparing to the leading providers in the market.

MessageSolution Enterprise Information Archive

MessageSolution delivers an all-in-one archiving solution for regulatory compliance, eDiscovery, storage management and interactive data management. **MessageSolution** eDiscovery features allow appropriate personnel to comprehensively search, access and produce data on-demand. Users can search through organization's email and attachment content, calendar events and email contacts in seconds, and search within search results to cull down data.

MessageSolution also supports Fuzzy, Wildcard and Proximity searches for comprehensive data collection. In addition, it offers comprehensive eDiscovery features such as universal legal hold, configurable third-party legal/auditor access, and data redaction, a feature not commonly provided in standard email archiving systems. Most features and functionality can be configured independently on a user/user group or on a company-wide level. Granularly configure data archiving, archive access, retention, redaction, etc. to establish a comprehensive compliance policy.

MessageSolution storage management technologies save up to 90% of storage on the email server by systematically offloading large attachments from the email to the archiving server. With de-duplication and a high in-process compression, **MessageSolution's** technology reduces storage requirements on the archiving server by up to 75% as well. Through self-serve data access, users are empowered to independently access approved data and with little to no daily system maintenance, IT resources are freed up for other projects.

MessageSolution Cloud Archiving and eDiscovery Solutions

For organizations looking for a hands-off information archiving approach, **MessageSolution** offers full cloud archiving and eDiscovery services with the same features and functionality of an on-premise enterprise solution. MessageSolution also fully integrates with Microsoft Azure, IBM SmartCloud, Savvisdirect, Amazon EC2, OpSource, etc. for public cloud storage or disaster recovery options.

All **MessageSolution** datacenters are bi-annually audited to maintain their SSAE Type II certification status. Datacenter security measures include biometrics, key, and password security. All datacenters will include UPS, diesel power generators with emergency contracts, temperature controller, and state of the art fire suppression equipment with an N+1 minimum design for the facility, etc. There are also options for SSL and AES encryption.

MessageSolution distinct itself from other solutions by being the first solution on the market to offer all on-premise, cloud archiving platform and MSP service provider hosted solution.

“No other archiving provider offers their clients more flexibility. **MessageSolution** supports most email server platforms along with file systems, SharePoint management, and legal discovery, therefore providing more economical options for customers in the education sector.” explains Kevin Mcinerney.

With clients that include University of New Orleans, University of Texas A&M, University of Utah, Law Institute of Victoria, Hong King University, Tacoma Community College and EduTech - a large-scale technology service provider for over 100 counties in New York, **MessageSolution** has proven to be the ideal solution for a wide range of educational institutions.

MessageSolution will be exhibiting at EduCause 2013 at Anaheim Convention Center from October 16 to 18, 2013. Contact or visit MessageSolution at www.MessageSolution.com.
