

MessageSolution Differences

Award-Winning Archiving for Lotus Notes Domino

As the global technology leader in compliance, storage management, litigation and e-discovery and an Advanced IBM Business Partner, MessageSolution works closely with IBM to ensure the seamless integration with all versions of Domino and Lotus Notes Client.

MessageSolution Innovations

- First 64 bit archiving solution in the market.
- Most scalable archiving solution in the market with industry scalability record of archiving 20,000 users with one single archiving server.
- Lotus Notes client integration supports full line Lotus Notes versions. Domino Web Access (DWA) / iNotes client integration enables mobile users to fast retrieve archived data.
- Third party database or software not required, effective ease of maintenance.
- Global multi-nations online system deployment in-parallel, cost- Options for both on-premise or SaaS enterprise-class archiving solutions.

Deliver True Unlimited Mailboxes for Users

No more mailboxes quota, transparent user experience with added convenience for users to search through archived data from the local client. Significant time-saving for users and increase productivity by turning all users focus on their job at hand.

Cost-Effective Storage Management Methodology

Efficiently move the data from ex[pensive email storage to in-expensive archiving storage bricks while providing transparent user experience for the client side so no change is detected by users yet large portion of storage space are reduced both on email server as well as the file server.

Built-in total Compliance and Litigation Support

All-in-one full suite of archiving for email, file systems, SharePoint and Quickr archiving. One-UI and one hardware server archives for all platforms and data, productivity goes up, hardware requirements decrease, a total automated solution.

Multi-Repository HSM Management, Spam Filtering

Auto notification system for storage space management, granular archiving retention policies for a complete plan of company policy setting – Universal, Department and Individual retention policies, stipulated and overridden by Litigation Hold, a complete litigation support module.

Benefits:

- Seamless integration through Lotus Notes plug-in, allow users to access archived emails transparently.
- Distributed through MSI installer, easy to install.
- Provide both Lotus Notes plug- in as well as Notes Template client options, easy to distribute to users.
- Offline Archive from Notes plug-in, allow users to access archived emails when they are not connected to the network.
- Offline Archive data can be auto-purged from local machine.
- Archive encrypted emails from users' mailbox.
- Maintain RTF email format.
- Federated Search allows search data from one location on all archiving servers across the country or across continents for multi-national global organizations.

On-Premise and Cloud-Based Archiving

www.MessageSolution.com
