| High Long-Term ROI  |   | ✓               |                        |

\*Only 800 # support

\*Compared to competitors' millions of micro files in the backend each year to slow down the performance, MessageSolution backend architecture contains only ~700 files to organize & back up each year

\*No need for configuration and installation of SQL (or Oracle, SAP, etc.)
