

## MessageSolution Newsletter

Q3 2011

MessageSolution – Global Technology Leader in Enterprise Information Archiving and eDiscovery

### **MessageSolution: 2011 Hot Companies and Best Products Award Finalist!!**

Network Products Guide, the industry's leading technology research and advisory guide, has named MessageSolution a finalist of the **6th Annual 2011 Hot Companies and Best Products Awards** in the New Product Category.

In our Customer Spotlight we would like to announce the addition of our new Managed Service Provider (MSP) client Educational Technology Service. EduTech is the top US online training and managed service provider for school districts. EduTech deployed MessageSolution Multi-Tenant Archiving Platform on a single server configuration in their data center. They archive for over 50 school districts representing 100+ schools with more than 25,000 individual users. As the very first vendor in the market to provide a multi-tenant and eDiscovery platform, MessageSolution is in the unique position to offer MSPs the ability to host hundreds of companies with tens of thousands of users on one single server. Other vendors would be forced to provide multiple servers. This can increase storage costs exponentially.

We would also like to give a warm welcome our new client Farmer's Insurance who, after two tumultuous years, has switched over from a competing product. May they have better experiences from here on out with MessageSolution File and Email Archiving Solutions.

Come join us for **BrainShare 2011!** On October 11-13 we are exhibiting at Salt Lake City Convention Center, Salt Lake City, Utah. With over 250 sessions to choose from, BrainShare is offering Introductory, Intermediate and Advanced level sessions covering Novell, NetIQ, SUSE®, and more. There will also be over 40 Advanced Technical Training hands-on sessions as well. So come join us at booth # 921. Come take part in our raffle for a chance at a **FREE iPad** and many other great prizes. Hope to see you there!
