MessageSolution Advances Its Innovative Leadership Position In Compliance Email Archiving and Storage Management, With The MessageSolution Enterprise Email Archiving Suite Edition 4.0 Release at 2006 Lotus Advisor Summit

MessageSolution Inc., the pioneer in developing and providing email and instant message archiving, legal search, electronic discovery, and storage management for enterprises to achieve the regulatory compliance, today released its Enterprise Email Archiving Suite 4.0, with its Worldwide Partner Program In expanding global business development

Phoenix AZ, August 28, 2006 -- MessageSolution, Inc. the leading technology innovator in Email Archiving, Information Retention, Storage Management, Email Compliance and Litigation Support, today announced its release of MessageSolution Enterprise Email Archiving Suite 4.0 at 2006 Lotus Advisor Summit in Phoenix, Arizona.

The enhanced new release includes key features such as seamless integration with MSFT Outlook, Lotus Notes Domino, Centera storage devices, PST File Manager, Windows/Linux multi-platform operating systems compatibility, and the native Linux platform support.

"MessageSolution Enterprise Email Archiving Suite Edition (EEA Suite) is an exceptional software solution that delivers the best and the most effective means for enterprise customers to archive the corporate emails and attachments, search and retrieve these email data and documentations to meet the organizations' growing requirements in regulatory compliance, optimized storage management, and Litigation support." Said Jeff Liang, CTO at MessageSolution Inc. "We're proud to exhibit our EEA Suite 4.0 Lotus Notes Edition at the Lotus Advisor Summit here, followed that earlier this month EEA Suite 4.0 was selected by the prestigious IDG World Expo for the Best Messaging Solution as two times finalist in 2006 Product Excellence Awards".

About MessageSolution Enterprise Email Archiving Suite 4.0:

By moving archived emails onto the MessageSolution Enterprise Email Archiving Suite, the industry-leading on-site email archiving software solution, the enterprise customers can significantly reduce the cost and complexity of the primary email storage and email application infrastructure while ensuring compliance and the immediate access to the email and attachment data from a preferred email client. With less data on the email servers, the corporate messaging systems become highly efficient to manage.

MessageSolution EEA product family includes two main versions, EEA Suite and EEA Express. The large size enterprises often select EEA Suite thanks to its comprehensive feature-set and the seamless integration with MSFT Outlook, Lotus Notes Domino, or its compatibility with the native Linux OS support. The medium size companies chose EEA Express version for its sufficient compliance archiving and storage optimization functionalities, along with the excellent performance in aspect of easy maintenance to offer a robust yet cost effective solution for the medium size organizations.

MessageSolution Enterprise Email Archiving software system is the first email archiving solution launched in the market with cross-platform compatibility of Windows/Linux, and the native Linux OS support.

Main Modules and Features in MessageSolution Enterprise Email Archiving Suite (EEA Suite):
