MessageSolution Showcases Cloud and On-Premise Enterprise Archiving and eDiscovery Platforms at TechEd 2012

MessageSolution, the global technology leader in enterprise information archiving and eDiscovery for Microsoft Exchange, SharePoint and Office 365 Cloud, will be exhibiting its award-winning On-Premise, Cloud, & MSP Hosted Platforms at Microsoft's TechEd in Orlando, Florida

Orlando, Florida and Milpitas California (June 11, 2012) MessageSolution, Inc., the global technology leader in enterprise archiving & eDiscovery solutions showcases its enterprise legal discovery, information archiving and migration solutions at Microsoft's TechEd in Orlando, Florida from June 11-14, 2012.

Microsoft invites the market's most innovative leaders in technology to showcase their product expertise while gaining knowledge on industry-leading Microsoft technology products. TechEd offers four days of hands-on training and certification courses for professionals involved in maintaining and building the Microsoft technologies platform. Alongside the industry's best is MessageSolution, a leader in enterprise information archiving and legal discovery technology with product deployments in over 50 countries. MessageSolution will be showcasing its advanced On-Premise and Cloud archiving eDiscovery platforms at the event.

"We designed a strong on-premise solution that supports our medium to enterprise size clients, and now we can put that same technical expertise on a trusted Cloud platform without compromising any advanced features, designed for organizations of all sizes," said Global Marketing Strategist Kevin McInerney. "MessageSolution Cloud and On-Premise solutions offer our clients the flexibility to deploy and implement our solutions in ways that fit their business."

MessageSolution offers a duality of cloud environments for SME and enterprises. MessageSolution Cloud Computing Platform can support private cloud environments or public cloud hosting, delivering compliance email SharePoint and file system archiving, legal discovery and case management support.

Enterprise SharePoint Archiving and eDiscovery Platform: MessageSolution SharePoint Management Solution is integrated with Microsoft RBS and EBS protocol ensuring 100% SharePoint performance. Businesses can implement MessageSolution. In addition to on-premise enterprise solutions deployed on clients' site, MessageSolution Enterprise Archiving and eDiscovery Platforms are integrated with Amazon EC2 and OpSource Cloud Networks, offering Enterprise Email Archive Cloud Edition for Exchange, Domino, GroupWise, and all Linux-based email environment. MessageSolution hosted cloud archiving allows businesses to implement a best-of-breed archiving eDiscovery solution in record time with minimal upfront costs and all enterprise features.

MSP Multi-Tenant and Dedicated Platforms: MessageSolution expanded its award-winning on-premise archiving solution to two platform based solutions for managed service providers. At TechEd 2012, MessageSolution will be showcasing its MSP Multi-Tenant Archiving Platform in addition to the Dedicated Archiving and eDiscovery Platform which combines scalability and technology to archive and store tens of thousands of users from hundreds of companies with

individual archives. The MSP Multi-Tenant Platform allows multiple companies to be archived under one configuration, while giving company administrators under separate servers access to manage and archive a single company's data. The MSP Multi-Tenant Platform is integrated with Outlook, Domino, GroupWise client seamless integrated features, providing award-winning transparent client user experiences with real-time email server storage reduction capability.

Migration: MessageSolution, Inc. has been recognized as the technology leader in cross-platform migration across different email, file, and SharePoint environments. The migration systems offer three levels of migration - the email migration of PST,

NSF and GroupWise local files, migration of various files to SharePoint, and the advanced migration service moves organizations from GroupWise/Domino/Linux-based servers to on-premise Microsoft Exchange as well as Office 365 cloud environment. In addition to moving organizations from GroupWise or Domino to Exchange, MessageSolution's signature technology is found in combination of migration and enterprise archiving with eDiscovery.

 "Our ability to scale is unmatched" Said Mcinerney. "We meet the needs of hundred user companies to Fortune 100 organizations cost effectively, delivering from small to large deployments of over 20,000 users on a single archive server and over 100,000 users in the clustered archiving server environment".

As a Microsoft Gold Partner, MessageSolution's product development team has achieved the following:

- Fully support Outlook 2011 Mac Entourage (the first Outlook 2011 integration in the market)
- Fully support Exchange 2010 (Exchange 2010 Web Service Protocol Integration for both On-Premise and Cloud Archiving & eDiscovery implementations)
- A complete integration with Outlook 2000, 2003, 2007 and 2010 (With "0" footprint on Exchange consuming "0" resource on Exchange Server)
- Fully support Windows Server 2008 64-bit Platform for Email, SharePoint, and File Systems (The first in the market 64-bit enterprise-class archiving application)
- Providing a complete advanced eDiscovery solution for Microsoft Exchange 5.5 to Exchange 2010, SharePoint 2007 – 2010, File Systems; IBM Lotus Notes Domino 6.5 upwards, Novell GroupWise 7.0+, and Linux-based email platforms such Postfix, Zimbra, Kerio, Scalix, Kero, etc.

MessageSolution is an exhibitor at Microsoft's TechEd in Orlando, Florida, June 11-14, 2012.

The MessageSolution Difference

While most solutions integrate with Exchange, a lot less work with Linux or Domino servers-MessageSolution integrates with all major email servers- a feat that puts their technology at the head of the archiving industry. MessageSolution provides sub-second data retrieval, an intuitive interface with federated search capabilities, and easy deployment. MessageSolution's intelligent back-end design significantly reduces installation requirements, backup time, and the need for technical support.

MessageSolution Enterprise Email Archive™ is a powerful enterprise archiving solution, deftly managing petabytes of data on a daily basis. Legal eDiscovery and litigation support are empowered by the archive's built-in search engine, which searches through millions of emails within seconds across global locations and data centers. Users can access their archive through their email client, browser, or BlackBerry.

MessageSolution delivers the industry's highest enterprise-level scalability and holds the industry record of archiving 25,000 users on one single MessageSolution archive server and with minimum hardware server configuration to archive for over hundreds of thousands of users. Competitive vendors archive on average 3,000-5,000 users on a single archive server, 5-8 times less than MessageSolution archiving system

Enterprise Email Archive™ further reduces organizations' storage costs by using only 25-30% of the original mail server storage space for live content archiving. MessageSolution's products support all Latin-based languages, as well as all character-based languages, such as Japanese and Chinese.
