1. Install NSF Download

1.1 Preparation

1. Make sure Notes Client is installed.
2. Make sure .Net Framework 2.0 is installed.

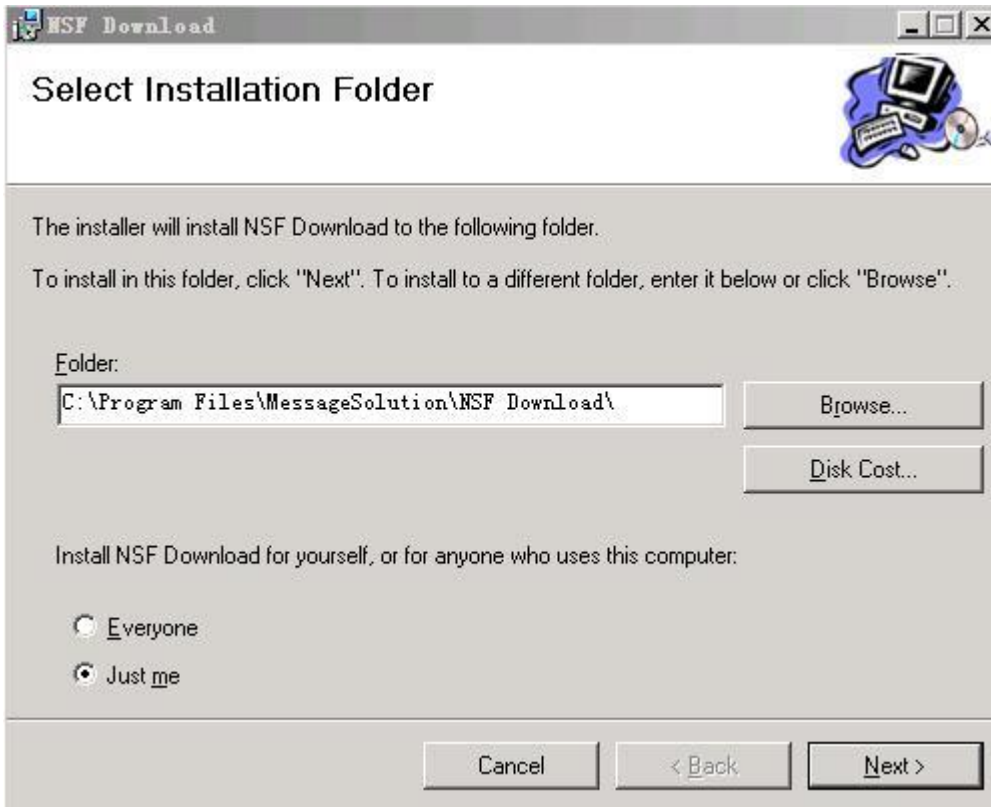

1.2 Installation

The install process is very simple; just click the Next button to finish installation.

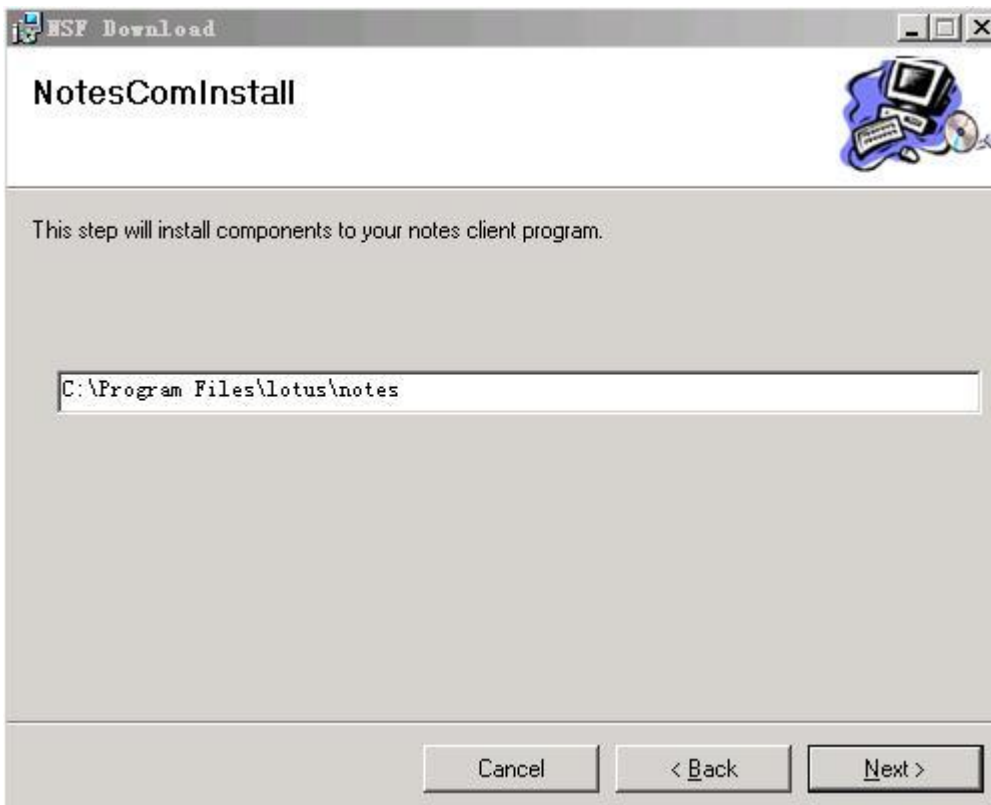

1. Click Next.

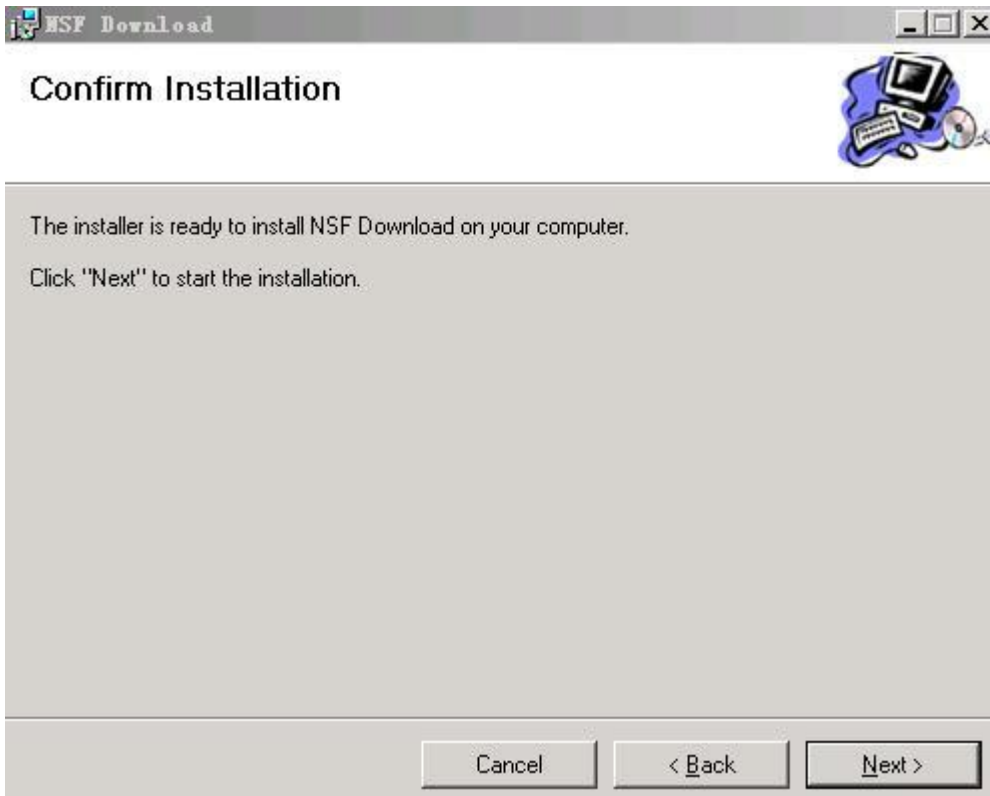

2. Choose install path and click Next.

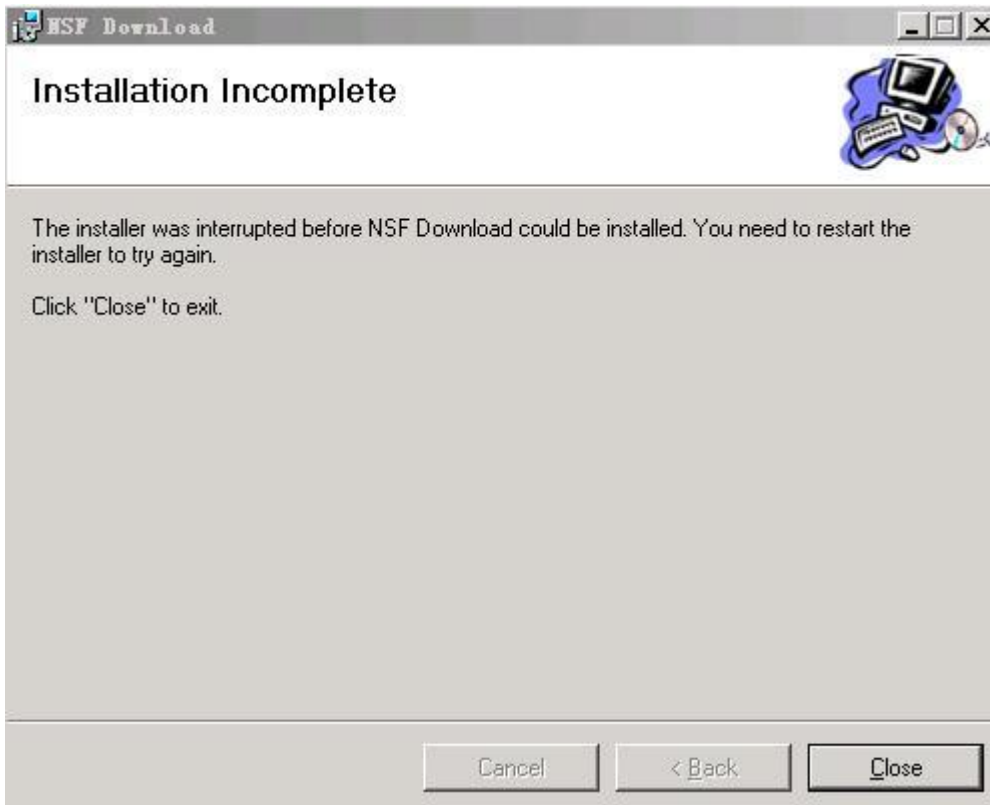

3. Click Next.

4. Click Next.

5. Install completely.

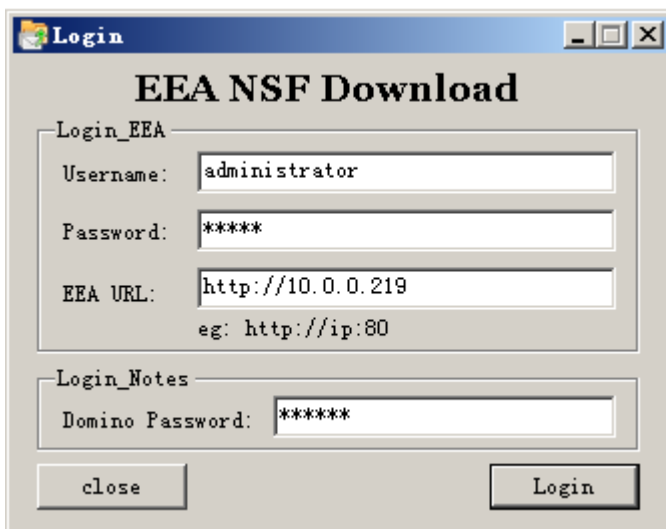

2. How to Use NSF Download

2.1 Login

1. Enter the Username: EEA user

Note: The user name can be both an EEA personal user and the administrator.

2. Enter the Domino Password: Notes Client Login password

The screenshot shows a Windows-style dialog box titled "Login" with a sub-title "EEA NSF Download". It contains two main sections: "Login_EEA" and "Login_Notes".

Login_EEA

- Username: administrator
- Password: *****
- EEA URL: http://10.0.0.219
eg: http://ip:80

Login_Notes

- Domino Password: *****

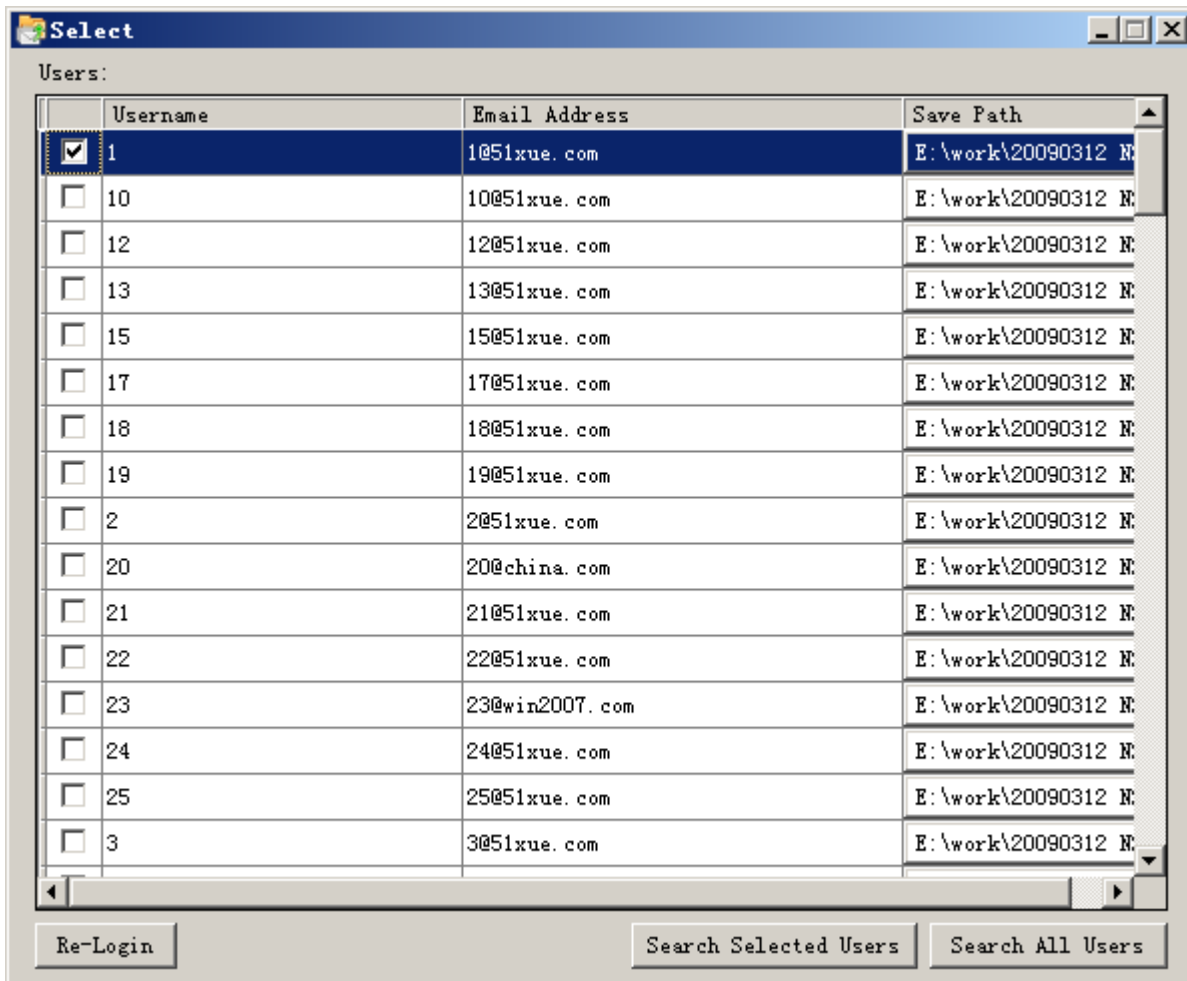

At the bottom, there are two buttons: "close" and "Login".

2.2 Select User

If logging in to the EEA with an administrator account, then the Select User page will pop up. This page will include all EEA users. If logging in to the EEA with a personal user account, then the EEA will go directly to the search page.

Using the administrator account, go to the Select User page:

1. If you select a user and then click the Search Selected Users button, then you will only be able to search and download this particular user's mails.
2. If you do not select any users and then click the Search Selected Users button, then you will be able to search and download all the users' mails.

2.3 Search Mails

This search page needs to connect to the EEA. On this page you can search mails according to specified conditions.

The screenshot shows a web application window titled "Search" with a breadcrumb path "Current path: Search Emails -> Archived Email". The main heading is "Archived Emails". The search criteria are as follows:

- Subject: contains all of [text box] Not [text box]
- Content: contains all of [text box] Not [text box]
- Attachment: contains all of [text box]
- Sender: is [text box]
- Recipient: is [text box]
- All Other Fields: contains all of [text box]
- Message Size From: 0 [text box] KB To: 0 [text box] KB
- File Extension: [text box]
- Attachment Filename: [text box]
- Messages for: Last twelve months [dropdown]
- Start Date: April [dropdown] - 27 [dropdown] - 2008 [dropdown]
- End Date: April [dropdown] - 27 [dropdown] - 2009 [dropdown]
- Repository: [dropdown]
- E-Mail Type: [dropdown]
- Tags: [dropdown]
- remote search:

At the bottom, there is a "Save as:" field with a "Browse..." button and an "NSF Size:" field with the value "2" and "GB". A central warning message reads: "Please press search button before downloading any emails." To the right of this message are three buttons: "Download Selected Emails", "Download All Emails", and "Back".

2.4 Select Mails to Download

1. Save as: Browse to the path where you want to save the .nsf files
2. NSF Size: Fill in. nsf file size you want to download. When the . nsf file size is larger, it will automatically establish a new NSF file.
3. Download Selected Emails: This will download all the mails selected.
4. Download All Emails: This will download all the mails searched.
5. Back: Go to previous window

The screenshot shows the 'Search' application window with the current path set to 'Search Emails -> Archived Email'. The interface displays a list of 153 messages on page 1. Below the list, there are tags for filtering (Confidential, Personal, Reviewed, Privileged, Responsive, NotifyHR) and a 'Save as' field set to 'C:\test001.nsf' with an 'NSF Size' of 2 GB. A central message reads: 'Please select emails to download. If you want to download all emails from this search, you do not need to select any email.' At the bottom right, there are buttons for 'Download Selected Emails', 'Download All Emails', and 'Back'.

2.5 Begin Downloading Mails

Pause Button: Pause to download/continue to download

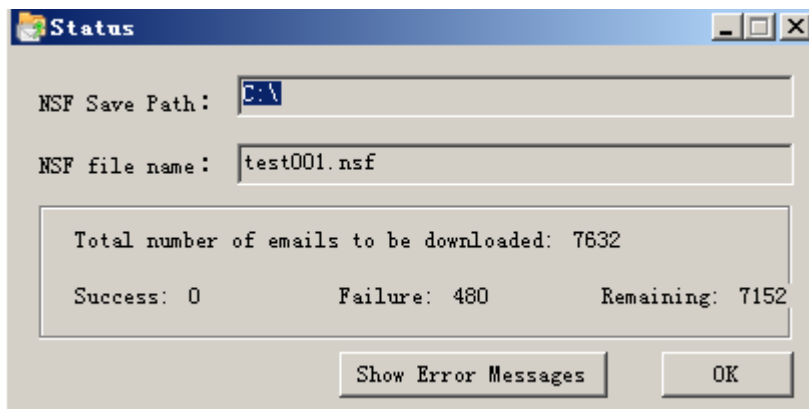

Continue Button : Go to previous window to download mails again.

Close Button : Close NSF download.

2.6 Status

If a failure message appears, click the Show Error Message button to see the specific content of the message.

The failure message window is as follows:
