## Software as a Service Email, File Systems, SharePoint Archiving

A complete SaaS archiving solution for compliance, e-discovery, litigation, & storage

### LIVE ARCHIVING SOLUTIONS FOR ORGANIZATIONS OF ALL SIZES

***MessageSolution Enterprise Archive SaaS edition is an all-in-one live archiving solution available for hosting in data centers, by hosting firms, and in multi-domain organizations.***

MessageSolution Enterprise Email Archive software as a service (SaaS) edition is the top archiving solution for enterprise storage management, compliance, e-discovery, and litigation support.

MessageSolution's full-text index engine delivers fast and accurate search results from millions of emails, while MessageSolution's breakthrough storage management technology reduces corporate message stores by more than 75% and guarantees sub-second data retrieval.

Businesses can implement MessageSolution Enterprise Email Archive SaaS Edition for hosted Exchange, Domino, GroupWise, and Linux-based environments. SaaS archiving allows businesses to deploy a best-of-breed archiving solution in record time with minimal associated costs.

Policy-based archiving and built-in reporting features support compliance efforts, while an arsenal of email management tools equip in-house legal teams with the ability to review the corporate archive without IT assistance.

MessageSolution Enterprise Email Archive SaaS Edition is hosted in multiple secured locations with industry-leading archiving performance, high availability, and disaster recovery. Data is encrypted as it leaves the enterprise customers' corporate networks, where it is securely stored with 128-bit encryption in the archive.
