MessageSolution – Makers of Enterprise Email Archive and Enterprise File Archive software solutions

MESSAGESOLUTION ENTERPRISE ARCHIVE AND E-DISCOVERY SUITE VOTED 2010 MSEXCHANGE.ORG READERS' CHOICE AWARD WINNER

Leading Microsoft Exchange Server resource site, MExchange.org, announced that MessageSolution Enterprise Archive and E-Discovery Suite was selected the winner in the Email Archiving category of the MExchange.org Readers' Choice Awards.

"Our Reader's Choice Awards give visitors to our site the opportunity to vote for the products they view as the very best in their respective category," said Sean Buttigieg, MExchange.org manager. "MExchange.org users are specialists in their field who encounter various solutions for Exchange Server at the workplace. Their vote serves as a solid peer-to-peer recommendation of the winning product."

MExchange.org conducts regular polls to discover which product is preferred by Exchange administrators in a particular category of third party solutions for Microsoft Exchange Server. The awards draw a huge response per category and are based entirely on the visitors' votes. MExchange.org users can submit their votes for the current Readers' Award poll in the site's left-hand bar.

"It is our honor to be voted as the best in class archiving and e-Discovery solution for Exchange Server by Exchange administrators and users on MExchange.org," said Kevin McInerney, Global Marketing Strategist at MessageSolution. "This is the second year MessageSolution has won this annual award, which shows that our unified user interface for email, SharePoint and file systems with Exchange 2010 Web Services Integration has delivered a world-class archiving and e-Discovery solution while providing the most responsive global online support. We will continue developing and applying our leading-edge technologies in our solutions and providing the best services for Exchange administrators and users around the world."

MessageSolution Unveils Advanced E-Discovery Multi-Tenant Suite for Managed Service Provider Partners at Microsoft 2010 Worldwide Partner Conference

MessageSolution's multi-tenant MSP solution is taking on rapid growth around the world, with implementations in over 30 countries. Its newly released advanced e-discovery function set includes high-speed Concept Search to cull down the amount of documents to be reviewed and an "intelli-search" for highly sensitive information, such as numbers for credit cards, social security IDs, patient IDs, and drivers' licenses.

MessageSolution precisely locates sensitive information on an on-demand or scheduled basis before automatically classifying and redacting sensitive information. Legal counsels can then promptly submit case-relevant records to the opposing legal team or court records without exposing highly sensitive information. This enables organizations to comply with strict privacy laws while addressing various regulatory compliance requirements.

A leading innovator in the e-discovery and live archiving space, MessageSolution is the first e-discovery and archiving vendor to deliver a packaged multi-tenant solution that is deployed in MSP partners' data centers. As a technology provider supporting MSP partners' software services, MessageSolution works closely with

Microsoft to offer a multi-tenant e-discovery and archiving solution to Microsoft's hosted Exchange Server partners around the world.

MessageSolution's multi-tenant e-discovery/archiving solution is also available for email servers and services such as Lotus Notes Domino, Novell Groupwise, WebEX Mail, Google Mail, Zimbra, Postfix, Scalix, and more.

MessageSolution's migration system can also help enterprises to quickly migrate from IBM Lotus Notes Domino and Novell Groupwise servers to a Microsoft Exchange Server environment., with a high performance PST file import utility to automate the importation process to Exchange 2010.

MessageSolution's turn-key multi-tenant e-discovery/archiving solution delivers high availability (HA), full redundancy, auto-failover, record keeping scalability, and high performance. MessageSolution software helps MSP partners effectively leverage their existing data center and managed service infrastructure to generate additional revenue and meet their global clients' e-discovery and archiving needs.

From enterprise customers with tens of thousands of users to SME customers with dozens of users financial broker & dealer houses, today's MSP partners' clients around the world are encountering increasing demand for electronic data discovery for litigation support or various auditing mandates, MessageSolution's newly available advanced e-discovery functions built in On-Premise, SaaS, and MSP partner-hosted multi-tenant data center edition, help enterprises as well as SME clients around the world effectively meet their e-Discovery & archiving requirements.
