Cloud Archiving eDiscovery & Content Security
Platform for Email, Files Shares & OneDrive SharePoint Online in Office365

MessageSolution Cloud Archive & eDiscovery Platform for Enterprise and SME organizations is a one-stop solution for compliance archiving, advanced eDiscovery and storage management. MessageSolution provides a secure, easy to use, cost effective & high-performance archiving eDiscovery solution for email, SharePoint and file systems. The archiving platform drastically reduces cost and eliminates complications associated with data storage, recovery and information archiving while giving users controlled, self-serve access to archived data.

MessageSolution Cloud Archive & Advanced eDiscovery Platform provides SME and enterprise organizations the secured cloud solution delivering enterprise-class functionalities and features with significantly less overhead and hands-off service.

MessageSolution Cloud Archive & eDiscovery Platform
For Email, SharePoint & OneDrive File in Office365 & Enterprise On-Premise

Corporate Data Management & Protection
With multi-tiered and configurable supervisor access permissions, end-users can immediately search and access archived data without compromising corporate or personal privacy.

Regulatory Compliance
Achieve and maintain regulatory compliance through policy-based retention, granular internal data controls, unalterable archive logs, etc.

Legal eDiscovery
Outsource eDiscovery requests from IT to the legal department or configure 3rd-party legal or auditor access. Locate, collect, and produce data as needed.

Interactive Storage Management
Reduce Storage requirements for email, SharePoint and file system servers and optimize performance. The MessageSolution Platform also functions as a recovery tool to retrieve business critical content.

Think Green!
Reduce energy consumption by 90%

In a recent study Microsoft, Accenture, WSP Environment and Energy estimated that that a 100-person company with applications deployed in the cloud can reduce energy consumption and emissions by more than 90 percent.

MessageSolution Cloud Archiving & eDiscovery Platform

MessageSolution Architecture & Solution Flexibility

The MessageSolution Platform does not require additional database or software licensing. The solution is the most scalable solution in the market and can archive for 25,000+ users on one server configuration or for several hundred thousand users in a clustered multi-server environment. The leading scalability delivers a lowered cost for the global SME and enterprise customers.

MessageSolution Cloud Platform also serves as a transitional hosting program for service provider and hosting partners, with a complete support of O365 & Gmail.

Advanced eDiscovery Platform for Defensible Discovery Process

The MessageSolution Advanced eDiscovery Platform delivers comprehensive features such as universal legal hold, configurable 3rd party Legal/Auditor access, data redaction & performs Fuzzy, Wildcard and Proximity searches for targeted data collection.
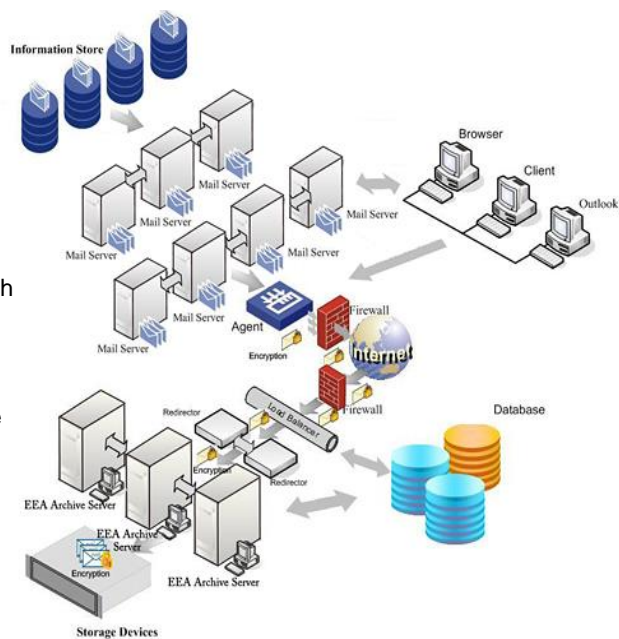

MessageSolution provides a real-world eDiscovery solution designed to outsource eDiscovery request from IT to Legal Team with user-friendly features include Multiple Case Management, Case Approval and Review Delegation, Legal Annotation, etc.

Archive & Data Access, Advanced Integration

MessageSolution Cloud Archive and eDiscovery Platform also offers direct email, file servers, Office 365 OneDrive & SharePoint Online integrations.
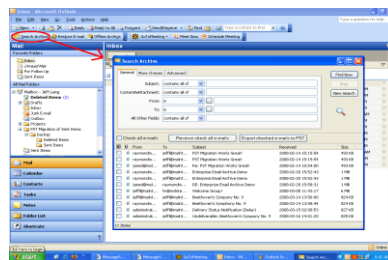

Users can access archived data through the universally accessibly web console or through the email clients, desktop add-in or SharePoint-Outlook integrated access.

MessageSolution Cloud Architecture

The Client Integration Feature offers:

- Searching & Access to Archived Data Through Email, Desktop & SharePoint UI

- Seamless Data Offloading from the Email, File, & SharePoint Servers

- Offline Archiving

MessageSolution Enterprise Email Archive
Microsoft Outlook Integration Archive Access

Global, Online Implementation, Training & Support

New MessageSolution organizations can be implemented for real-time, compliance archiving within half an hour.

All MessageSolution system implementations, training sessions and technical support sessions are done on-line via GoToMeeting or WebEx, making it more cost effective and always accessible.

Supported Public Cloud Networks

In addition to the MessageSolution Cloud Network, the solution also integrates with any private cloud networks and the following public clouds:

- Microsoft Azure
- Amazon AWS
- Google Cloud
- IBM Cloud

Data Security in the Cloud

To ensure data security, MessageSolution offers SSL and AES high-grade encryption options. In addition, to maintain SOC II Type II certification, all MessageSolution data centers are bi-annually audited for physical and procedural safeguards with detailed security measurements implemented to the datacenter operations.

The MessageSolution Platform also leverages multi-tiered access permissions to granularly manage internal data access permissions.

Migrate to the Cloud

MessageSolution supports on and offline data import migration. Migrate historical data to the cloud-based archiving system from PST/NSF/GroupWise Files, Public Folders, etc. MessageSolution also provides a stand-alone enterprise cross-platform email migration system to help organizations move from enterprise on-premise to hosted email services, such as Office365 and Google Mail.

About MessageSolution

MessageSolution, an industry leader in enterprise information archiving, eDiscovery and security, delivers cloud, on premise and MSP/ISP-hosted multi-tenant platforms for email, file, and SharePoint environments. The MessageSolution Platform helps organizations maintain regulatory compliance, mitigate legal risks, and manage storage requirements. As a recipient of multiple industry awards for providing best Enterprise and Cloud Archiving Platforms, MessageSolution technology is implemented worldwide with products deployed in over 50 countries around the world.
